Subject-Regarding Faculty Exchange Program

Respected Prinicipal,

As per MoU signed between Gulab Chand Prasad Agrawal College, Sadma and St. Xavier's College, Mahuadanr we would like to thank and appreciate St. Xavier's College, Mahuadanr for releasing Asst. Prof. Shashi Shekhar Dept. of Botany of St. Xavier's College Mahuadanr in helping us for preparing the SSR and NAAC documents from 12th June 2023 to 27th June 2023.

Thank you also for the faculty exchange and I would like to congratulate you Sir for making the MoU functional. We Shall be organizing such programs in the near future.

Thanking you

Yours Sincerely

Visit to Indian Institute of Production and Management (IIPM), Rourkela

From 28th April 2023 to 30th April 2023 , forty students of the Department of Commerce of St Xavier's College ,Mahuadanr accompanied by Asst. Prof. Amrit Minj and Asst. Prof. Surabhi Sinha visited Indian Institute of Production and Management (IIPM), Odisha .

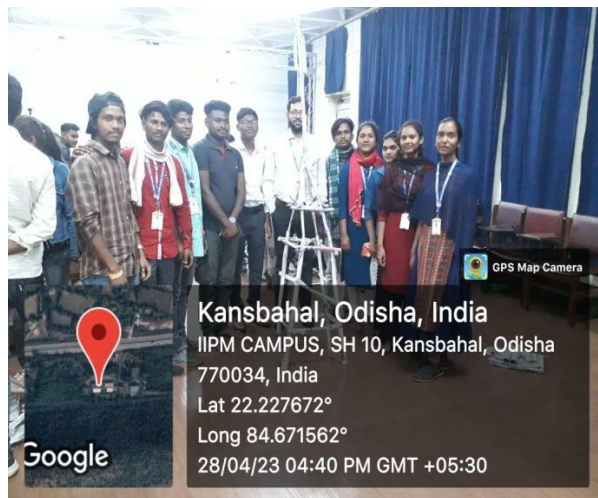

The Principal of the College, Dr. Fr. M.K. Jose also visited the institute for a day. This programme was organized by Dr. Fr. M. K. Jose and Management team of IIPM, Odisha. Mr. Ameet Naik played an active role in the arrangements. The main purpose of the visit was signing of Memorandum of Understanding (MoU) between the two colleges for academic and industrial collaboration. The major highlights of the visit were student exchange programme, industrial visit, cultural programme and Rourkela city tour . Towards the end of the programme the students were facilitated with certificates.

It was a rare and splendid opportunity for the students and staff which proved to be a thorough breakthrough in terms of knowledge sharing, exchange of ideas and experience. It also inculcated good habits and career consciousness amongst students.

Interactive Sessions

The programme started with an inaugural session and welcoming by the Director Mr Sudip Ghose and faculty members at IIPM. In order to make the visit a great learning experience for the students four sessions were conducted on general topics like team building , interpersonal skills ,time management and motivational skills. The resource person for the programme was Prof Shaikh Faridullah . The sessions were made effective with power point presentations followed by activities which fully involved the students interest. Also, a video clip of Arunima Sinha, who is world's first amputee to scale Mt Everest (Padma Shri) was shown to inspire students to pursue their goals. Also ,video clip of the Mumbai Dabbawalas was shown and well explained to show timely and efficient management . Through activities like tower making from newspaper and tape, paper glass arrangement through the use of thread, balancing and passing of balls through pipes, etc. important lessons were taught in a gameful manner .

City tour to Rourkela

Rourkela is a planned city located in the Northern district Sundargarh of Odisha, India .It is the third largest urban agglomeration in Odisha after Bhubaneswar and Cuttack. On 28th April, after the first session got over, students were taken on a trip to the noteworthy locations of the well maintained Rourkela city. The prominent locations visited were Birsu Munda Football Stadium, Dhyanchand Statue Point, Rourkela Smart City Hub, Budha Lake, Park, etc. Also, students were taken to Forum Galleria Mall. They fully enjoyed their leisure time at the mall and park.

They were also shown Chhend Colony which is one of Asia's largest colonies. Also, each chowk of the city was well decorated showing satellite launches, football cup, decorative displays, etc. The students took keen interest in taking a tour and were fascinated with its beauty and charm.

Signing of Memorandum of Understanding

On 29th April, 2023, a Memorandum of Understanding was signed between St Xavier's College, Mahuadanr and Indian Institute for Production and Management, Rourkela for promoting academic and industrial co-operation. The head of both the institutions Dr. Sudip Kumar Ghose and Dr. Fr. M. K. Jose signed the collaboration documents. The IQAC coordinator, Mr. Siddharth Shankar and faculty members of both the institutions were present there.

Industrial Visit to Scan Steels Limited

The students were taken to Scan Steels Limited for Industrial Visit. The Scan Steel Limited is involved in production of TMT rods under the brand name Shrishti TMT. It is a reknowned TMT manufacturer in Odisha. With the help of the Management Department head of IIPM ,Rourkela; the students of St Xavier’s College, Mahuadanr got an opportunity to visit the production site at Scan Steels Limited . The authorities of the industry took a brief session of the students where they explained their operating activity and marketing process. The raw material used here is iron ore, coal, and a small amount of dolomite. They are mixed in required proportion. It gets a heat treatment, where iron ore is converted into molten iron and through a continuous process of heating and cooling at requisite temperature, sponge iron is obtained. It is further exposed to heat and pressed into rectangular bars from which TMT rods are manufactured. It was an enriching visit and towards the end, the students had a question answer session in which they clarified their doubts. Also they were supplemented with refreshments .

Cultural Programme on International day of Dance

29th April is observed as International Dance Day worldwide. On this evening, a cultural programme was organized in which the students of both the institutions enthusiastically participated. The programme began with a tribal dance presented by students from St Xavier's College, Mahuadanr. It was followed by individual dance performances by three girl students from IIPM, Rourkela. Then Pritam Tigga, presented a rap song which was much liked by the audience. Towards the end, Raja Ram Ravi presented a folk dance performance . The programme was a great success and much enjoyed by students and faculty of both the Colleges. Thus, the programme revealed the artistic and creative talents of the students.

Conclusion

The three day tour was an effective and productive means for the overall development of the students. It exhibited excellent hospitality and behaviour from the faculty and students of IIPM, Rourkela . Also, the authorities well managed the fooding and lodging of the students and staff. It helped students outgrow the basic difficulties in team building, goal setting and personality traits. It rejuvenated a new spirit towards work and life. The students also developed good communication and interactive skills. Such student exchange programmes are a proficient tools for all round development of youth. Thus, to conclude we can say that, such sessions should be conducted more often for proper exchange of ideas and ensuring academic collaborations in times to come.

Subject: Request for Online Student Development Program

Respected Principal,

May I kindly request you to arrange an online guest lecture for the students of the Department of Mathematics at St. Xavier's College, Mahuadanr. The lecture is scheduled to take place on 26th July 2023 from 10.00 a.m.

We believe that such lectures provide valuable insights to our students and enhance their learning experience. We kindly request your esteemed office to grant permission for Dr. (Mrs.) M.R. Nagalakshmi, Head of the Department of Mathematics, to share her expertise on the Application of Mathematics in real life and share some interesting facts with our students.

We sincerely appreciate your support. It will help us to make the MoU signed between the two colleges functional.

Looking forward to have many more such programs!

Respected Principal,

It is to bring to your kind notice that St. Xavier's College Mahuadanr is committed to impart quality education to the most neglected underprivileged students. The college is meant to serve the indigenous people of the remote area of Mahuadanr. The ambition of the college is to inspire students to learn, lead and serve in the constantly diversifying and changing world.

We intend to achieve an academic excellence in all our streams. We wish to inculcate moral and humane values in our students so that they may be responsible citizens of our country. In our endeavor to serve the people of the locality, we are very much interested to collaborate with you and participate in your community building activities.

I, therefore, implore you to sketch out a programme for exchange of faculties and students to achieve the noble ambition of generating leaders who are compassionate and competent to build up a just society.

Looking forward to your kind response.

Functional MoU with Holy Cross Women's College, Ambikapur

Date: 21/04/2023

Place: Holy Cross Women's College, Ambikapur

A group of professors led by Fr. Dr. M.K Jose, Principal of St. Xavier's College, Mahuadanr, visited Holy Cross Women's College, Ambikapur. Both colleges signed the MOU at this time, and in the presence of Fr. Dr. M.K. Jose and Holy Cross Women's College Principal Dr. Santa Joseph, they also pledged to continue their mutual cooperation and idea sharing in the future.

Sr. Kaslin, the IQAC Coordinator at St. Xavier's College, gave an overview of the College's SSR report at this time. Additionally, specialists from the College of the Holy Cross offered guidance on SSR mistakes and enhancements. Faculty development initiatives were also set up around this time. Professors of both the colleges also discussed the challenges and possibilities in implementing the New Education Policy and assured mutual cooperation. At the end, Fr. Dr. M.K Jose expressed his heartfelt gratitude to the Principal, all the professors and non-teaching staff of Holy Cross Women's College.

Functional MoU with National Institute of Securities Market & Kotak Securities

WORKSHOP ON “FINANCIAL EDUCATION FOR YOUNG CITIZEN”

SXC Mahuadanr
1st - 4th March 2023

Four day workshop on financial education for young citizen was conducted by St. Xavier’s College Mahuadanr from 1st-4th March 2023 for third year students. The main purpose of this program was to conduct the financial education session (A CSR project of National Institute of Securities Market & KOTAK SECURITIES) for young students to make them eligible for getting job in BFSI sector.

CSR stands for Corporate Social Responsibility. Corporate Social Responsibility (CSR) is the initiative taken by the corporate giants to integrate social and environmental concerns in their business practices. This program was for 10 hours duration. There was 50 students in each batch and two batches had classes per day. The program was divided in eight comprehensive sessions. Each session had different topics and all the topics were very important. Students were specially told about investment, mutual funds, career in securities markets etc. at the end of the day students participated in online test and got certificate. Three resource persons were there from CSR project for this program.

This session was very informative for students.

INAUGURATION OF INTEGRATED COACHING PROGRAM

An 'Integrated Coaching Centre' for the local students of Mahuadanr was inaugurated in the institution by the honorable MLA of Manika, Mr. Ramchandra Singh on the 3rd of December, 2021. It was a great step towards success as free coaching for civil services aspirants has been arranged in such a backward area. An online Orientation Program was conducted for those students who were finally selected based on their past academic records for the coaching program.

The honorable guest, DC Abu Imran sir addressed the students and emphasized that the aspirants from the weaker economic section did not have access to quality coaching and it is difficult to move out of the inaccessible hilly terrain to pursue their dreams. 'Integrated Coaching Centre' will help them achieve their goals. Sir further added that the "Integrated Coaching Program" for the preparation of UPSC/JPSC/BPSC/SSC is scheduled for a length of 6 months and the aspirants enrolled for the coaching

will be taught as per the syllabus of UPSC, JPSC, SSC and other competitive exams by highly experienced teachers who cracked many competitive exams. Sir encouraged all aspirants to focus on self-study as well to achieve their set goals. Sir further said that Haque Educational and Social Welfare will provide all aspirants with free quality education.

The Director of the Coaching Centre M. A. Haque emphasized that all teachers are well experienced and they are ready to guide them properly. The programme came to an end with the vote of thanks and the national anthem.

Overall, it was a successful programme initiated for the betterment of local students. SDO Nit Nikhil Surin, DSO Shivendra Singh, BDO Amren Dang, CO Pratap Toppo and Principal Dr Fr. M. K. Jose were present.

FUTURE PLAN AFTER GRADUATION

SXC Mahuadanr

18th May 2022

Fr. Principal Dr. M.K. Jose SJ has introduced the theme of the programme to the students and invited the director of Integrated Coaching centre Mr. Haque to interact with the students.

Mr. Haque has encouraged the students to have clear plans for their future career and prepare for UPSC, JPSC etc to become civil servants. In order to be successful in one's life one should have clear plans and goals for one's life. He encouraged the students by bringing the example of Mahatma Gandhi who is a role model for all generations for his hard work to achieve his goals and selflessness in serving his people as a leader. He motivated the students to find out their own interests, hobbies and develop their personality by a sort of etiquette for their own growth.

He emphasized on the importance of education and said that education is the only weapon to win over any situation or problems of life. Discipline and determination can only help to achieve a credible job in the society. He has put forwarded many schemes regarding State and Central Government education. He suggested the students to spend at least two hours for study in order to explore their potential and know their weakness.

He concluded his talk by saying that acquiring knowledge is a continuous process and only education can help us to acquire this knowledge.

Preeti Kumari, a student of integrated Coaching Centre has shared her experience of joining the centre.

Director of the programme has distributed the books concerning the coaching centre, syllabus etc. to the present batch of students.

Fr Principal appreciated its work and encouraged the students utilize this opportunity which is freely offered and benefit from it to become successful in their lives.

The programme was concluded with a National Anthem by 2.45. P.M.

Functional MoU with Deepthi Hospital, Mahuadanr

FREE MEDICAL CAMP

On November 23rd, 2021, St. Xavier's College Mahuadanr, in collaboration with Deepthi Hospital, organized a free medical camp aimed at providing healthcare services to the local community. The event took place at the college premises and witnessed active participation from students, staff, and residents of the locality.

FREE MEDICAL CAMP

On March 3rd, 2023, a collaborative effort between Deepti Hospital resulted in the organization of a free medical camp. The primary objective of this camp was to attend to the diverse health concerns of both the local residents and students. Services provided included testing for hemoglobin levels, blood pressure, and addressing gynecological issues.

Functional MoU with Xavier Education and Development Society, Hazaribag

Awareness Programme on Legal Rights

In partnership with the Xavier Education and Development Society, an awareness program on legal rights was orchestrated at the Alert Center for the residents of Pakripath on 15th March 2022. Spearheaded by Fr. Shyju as the program coordinator, the initiative elevated participants' understanding of their rights. The program stands as a holistic endeavor, designed to educate individuals about their legal rights, covering diverse aspects of legal knowledge and empowering participants to assert their rights effectively within the legal framework.

Awareness Programme on Women Development Programme

In collaboration with the Xavier Education and Development Society, an impactful awareness program on the Women Development Programme unfolded at Karuna Bhavan for the residents of Navajara on January 27th, 2023. Guided by Fr. Shyju as the program coordinator, this initiative aimed to uplift and enlighten participants about the Women Development Programme, fostering a deeper understanding and appreciation for its significance.

The program was meticulously crafted to provide a comprehensive overview of the Women Development Programme, covering a spectrum of topics including women's rights, healthcare, education, and economic empowerment. Various interactive sessions were conducted, encouraging active participation and dialogue among the attendees.

Subject: - Visit to Maharaja Ice-cream Factory, Mahuadanr.

Respected Principal,

With due respect, I request you to grant permission for the undergraduate students of the Department of Physics, St. Xavier's College Mahuadanr for field visit to the Maha-Raja Ice-cream factory, Mahuadanr on 6th and 7th April 2022. The purpose of this visit is to help students understand the process of making ice-cream and the principles of Physics involved in it. It will be a great learning experience for the students of the college.

Kindly grant us permission, we will be very grateful.

Thanking you

Field Visit Study Report

on

Process of Making Ice-Cream

Introduction

Ice-Cream is an antidote against the blistering summer heat. Ice cream is made from a blend of dairy products (cream, condensed milk, and butterfat), sugar, flavorings, and federally approved additives. Eggs are added for some flavorings. The broad guidelines allow producers to use ingredients ranging from sweet cream to nonfat dry milk, cane sugar to corn-syrup solids, fresh eggs to powdered eggs. The additives, which act as emulsifiers and stabilizers, are used to prevent heat shock and the formation of ice crystals during the production process. Ice cream flavors have come a long way from the standard vanilla, strawberry, and chocolate. In an ever-expanding array of combinations, fruit purees and extracts, cocoa powder, nuts, cookie pieces, and cookie dough are blended into the ice cream. The students of the Department of Physics were taken for a field study to Maharaja Ice cream factory.

Value of study Tour

Study tours are essential for the overall development of a student. They provide valuable educational opportunities away from the classroom without using textbooks. The Study tour provides practical exposure to the students where they could experience the process of making of ice cream.

Objectives:

- To know the process of making the ice-cream

e. Add Liquid Flavors and Colors

Liquid flavors and colors may be added to the mix before freezing. Only ingredients that are liquid can be added before the freezing, to make sure the mix flows properly through the freezing equipment.

f. Freeze

The process involves freezing the mix and incorporating air. Ice cream mix can be frozen in batch or continuous freezers and the conditions used will depend on the type of freezer. Batch freezers consist of a rotating barrel that is usually filled one-third to one-half full with ice cream mix. As the barrel turns, the air in the barrel is incorporated into the ice cream mix. Ice cream freezers designed for home use are batch freezers. Continuous freezers consist of a fixed barrel that has a blade inside that constantly scrapes the surface of freezing barrel. The ice cream mix is pumped from a bulk tank to the freezing barrel and the air is incorporated with another pump just before it enters the freezing barrel. The continuous freezing process is much faster than the batch freezing process.

The addition of air is called overrun and contributes to the lightness or denseness of ice cream. Up to 50% of the volume of the finished ice cream (100% overrun) can be air that is incorporated during freezing. At the point of discharge from the freezer (draw temperature), only about 50% of the water in ice cream is frozen. Soft serve ice cream is generated at this point in the freezing process.

g. Add Fruits, Nuts and Bulky Flavorings (candy pieces, etc.)

Fruits, swirls, and any bulky type of flavorings (nuts, candy pieces, etc.) are added at this point. These ingredients cannot be added before freezing or they would interfere with the smooth flow of the mix through the freezer. The ice cream at this point is soft and it is easy to mix in the bulky flavorings so they are uniformly distributed throughout the ice cream. Mixing in bulky flavorings after freezing also prevents damage to the pieces and allows them to remain whole or in large chunks.

8. Package

As desired, depending on the product it is packed into cups, cones or paper mould.

9. Harden

The ice cream is cooled as quickly as possible down to a holding temperature of less than -13°F (-25°C). The temperatures and times of cooling will depend on the type of storage freezer. Rapid cooling will promote quick freezing of water and create small ice crystals. Storage at -13°F (-25°C) will help to stabilize the ice crystals and maintain product quality. At this temperature there is still a small portion of liquid water. If all the water present in the ice cream were frozen, the ice cream would be as hard as an ice cube.

Findings & Outcomes:

The students appreciated the effort of the officials to run a factory in the remote area as Mahuadanr despite the non-availability of continuous power supply. As Ice-Cream is an antidote to beat the blistering summer heat, people welcome it. The various process involved and the ingredients used enlightened the students to have greater love for Physics. The use of emulsifiers and stabilizers and the addition of air in the process made the whole process much beneficial. There is large supply of ice creams from Maharaja company in the town. The demand for ice cream is overwhelming on market days (Monday, Thursday). The ice cream company provides employment opportunity for many youth.

Conclusion:

The field trip helped the students to appreciate the discipline of their choice because of the vast application of it in the daily living. The students could analyze the various principles involved in the production of ice cream. The students were inspired to plan about their future to begin startups using the principles of physics. The great learning enabled them to return with great self-confidence and determination

Webinar on “The future of education and skilling- Role of technology and digitalisation”

A webinar on “The future of education and skilling- Role of technology and digitalisation” was organized for the students on 19th March, 2021 by Jeevitam organization. Students attended the webinar via online platform YouTube. They gained knowledge with this webinar and were enthusiastic for these types of webinars.

INAUGURATION OF THE STUDENT RESOURCE CENTRE

Date: 2nd May 2023

Place: SXCM

Fr. Principal inaugurated a Student Resource Centre run by CSC at St. Xavier's College, Mahuadanr with great enthusiasm. Fr. Principal said that this centre would provide all types of digital services like Caste Certificate, Residential Certificate, Aadhar Card related services, e-kalyan scholarship form fill up, exam form, admit card, fee payment, etc. at low cost.

The Director of CSC said that the main aim of starting the Student Resource Centre is to provide an online platform for higher education for the students of the college after the completion of their graduation. He briefed the students about the online courses of various institutions of the country like Amity University, IIT Mumbai, etc. at low cost. Sir also said that these job-oriented courses would help them get jobs in various fields as it is a golden opportunity for those students belonging to the remote area like Mahuadanr. Mr. Pawan Singh, District Coordinator, CSC said that this centre would make available many job-oriented courses like Tally, Vocational Courses, Photoshop, AutoCaD, Microsoft, services related to competitive exams, etc. Fr. Principal appreciated the initiative of the CSC for welfare of the students by opening the Student Resource Centre at SXCM. The students gained lots of information. Overall, it was a great success.

St. Xavier's College, Mahuadanr Latehar-822119, Jharkhand

1. **Title of the Program:** Free Health Camp
2. **Organizing Department / Cell :** Department of Botany
3. **Date/Duration:** January 21, 2023
4. **Number of Participants:** 300
5. **Detail description of the event:**

A Free Health Camp was organized by Botany Department in collaboration with YRC on 21 January 2023 at St Xavier's College, Mahuadanr. It was from 10 am to 5 pm. The purpose of this event was to create awareness of the need for regular health check-up among students, staff and local people. Many teachers and students of the College voluntarily participated in it. A team of two doctors, Dr. Sr. Philomina CMC from Carmel hospital, Dr. Binit Mukesh, M.O from Government Hospital and seven nurses conducted the camp. At the outset, Dr. Sr. Philomena CMC gave a short talk on the importance of regular health check-up. The Principal of the College and a large number of teachers, students and other beneficiaries took part in the Free Medical Camp. The faces of the beneficiaries expressed their admiration and gratitude, while the doctors appreciated all the participants for making the camp a huge success.

- 1. Title of the Program:** Encouraging the reporting of disease outbreak to local authorities
- 2. Organizing Department / Cell :** Department of Botany
- 3. Date/Duration :** December 16, 2019
- 4. Number of Participants :** 45
- 5. Detail description of the event:**

The "Outreach Program to Encourage Disease Outbreak Reporting to the Local Authorities was conducted in collaboration with the Sadar Hospital, Mahuadanr. This program is a collaborative effort between local health authorities, community organizations, and concerned citizens, all working together to safeguard public health. This outreach program seeks to inform and empower individuals to recognize the signs and symptoms of potential disease outbreaks. Participants are educated on the importance of timely reporting to local health authorities. By fostering a culture of vigilance and responsibility, this program encourages individuals to report any unusual or suspicious health trends promptly. This information is critical in enabling authorities to respond swiftly, deploy necessary resources, and implement containment measures to prevent further spread. Together, we can create a healthier and safer community where early reporting plays a pivotal role in safeguarding the well-being of all.

Name of the programme: Preparation of Self Study Report

On 01-06-2019, Sr. Kaslin conducted a training programme shedding light on the "Revised Assessment and Accreditation Framework of NAAC."

Acknowledging the substantial benefits that accreditation from a recognized body brings to higher education institutions, the training programme centered around the importance of successfully obtaining accreditation. Sr. Kaslin delved into the intricacies of the revised framework established by NAAC, emphasizing its significance for both educational institutions and their students.

During the session, Sr. Kaslin elucidated the accreditation criteria set forth by NAAC, encompassing seven key aspects:

- Curricular Aspects
- Teaching, Learning, and Evaluation
- Research, Innovation, and Extensions
- Infrastructure and Learning Resources
- Student Support and Progression
- Governance, Leadership, and Management
- Institutional Values and Best Practices

A notable emphasis was placed on the Quality Learning and Metrics (QLM) questions, with Sr. Kaslin underscoring their critical role. She provided a concise yet thorough explanation of each criterion, offering valuable insights to the attendees. Sr. Kaslin's emphasis on strategic concentration on QLM questions and adherence to proper reporting guidelines aimed to equip institutions with the tools necessary to achieve higher rankings in the NAAC accreditation process.

Name of the programme: Guidelines for NAAC SSR Preparation

Assistant Professor Sr. Kaslin Juliet led a seminar on "Guidelines for NAAC SSR Preparation," commencing her session by emphasizing the pivotal role of NAAC in the higher education system. She proceeded to provide a comprehensive breakdown of each question within the seven criteria, meticulously reviewing the Quality and Quantity Metrics (QNM) and Excel sheets prepared by the staff. Sr. Kaslin Juliet not only scrutinized these elements but also offered innovative ideas to enhance the strategies employed in the preparation of SSR reports.

Key highlights of the seminar included:

- Stressing the importance of marks gained in each question across the seven criteria.
- Offering a detailed explanation of the entire report, covering the college profile, extended profile, and the SSR report.
- Providing insights into the preparation and maintenance of all required documents.

The seminar proved instrumental in imparting a clear understanding to all staff members, empowering them with the knowledge and strategies needed to adeptly craft SSR reports. Sr. Kaslin Juliet's guidance not only clarified the intricacies of NAAC SSR preparation but also contributed to an improved and streamlined approach among the staff.

Inter-College Collaboration
St. Ann's College for Women, Visakhapatnam
And
St. Xavier's College, Mahuadanr.
20th March 2023.

An Inter-College Collaboration was arranged by St. Xavier's College, Mahuadanr between two prestigious colleges St. Xavier's college, Mahuadanr and St. Ann's College for Women, Visakhapatnam on 20th March 2023.

Dr. Fr. M.K. Jose SJ, the principal of St. Xavier's College, Mahuadanr graciously presided over the gathering and welcomed Dr. Sr. Prema Jose SAL, the Principal of St. Ann's College for Women, Visakhapatnam for this Inter-College Collaboration.

In his address Dr. Fr. M. K. Jose enumerates the important practices to be inculcated to achieve success in life:

- Prioritise your goals
- Cultivate good habits
- Be Positive
- Learn from mistakes
- Be open to new things

Dr. Sr. Prema Jose SAL, addressed the students on how to achieve success in life. She highlighted four necessary attitudes that the students need to achieve their goals. They are as follows.

Self-Confidence

Hard work

Perseverance

Patience.

Self-confidence is crucial in the midst of challenges.

The speaker inspired the students to believe in themselves. Perseverance and patience are very important because the journey is very demanding and

constantly encountering new situations and challenges, including failures and setbacks. The Sister's presentation was very appealing and convincing to the students

The session was enriching and motivational for the students as well as the staff. Both the principals made agreement to extend moral and academic support to each other's institution.

Faculty Exchange Programme in St. Ann's College Malkapuram

A faculty exchange program was successfully implemented with St. Ann's College in Malkapuram. The Sr. Chandrodaya Department of English took the initiative to conduct a comprehensive class for the students enrolled in the English department at St. Ann's College, Malkapuram. This program spanned a period of two weeks, providing an enriching and collaborative learning experience for both institutions.

Respected Principal,

With due respect, I request you to grant permission for undergraduate students of Department of Botany, St. Xavier's College Mahuadanr for the field visit to Mushroom Cultivation & Training Centre, Mahuadanr on 4th & 5th April 2022. The purpose of this visit is to give the students exposure to the experiences of experts in the field and to functioning mushroom farms and to help the students to learn a means of self-employment and income generation. It will be a good learning experience for the students of the college.

Kindly grant us permission, we will be very grateful.

Thanking you

Field Visit Study Report on

MUSHROOM CULTIVATION

Introduction:

Mushroom has been used as food and medicine from ancient times. Mushroom contains all essential amino acids, vitamin B complex, iron, calcium, potassium, phosphorus, folic acid and other biochemical compounds. It is also a good source of dietary fibre. It is recommended even for people suffering from cholesterol problems, heart diseases, diabetes and cancer. Mushroom cultivation has now become income generating, since there is great demand for healthy and quality food products. Mushroom cultivation involves small initial investment; but the production is year-round. It is an eco-friendly agricultural practice. Considering the commercial viability and self-employment potential of mushroom cultivation and marketing, the Department of Botany conducted field visit study for the students.

Value of study Tour:

Mushroom cultivation is fast yielding and it has high market demand and nutrition value. Being a reliable source of income, it is particularly beneficial to the poor. It is attractive to rural and urban farmers since mushroom cultivation does not require land.

Objectives:

- To know the nutrient values of mushrooms.

- To enable the students to identify the edible and poisonous mushrooms
- To provide hands-on training for the preparation of bed for mushroom cultivation and its harvesting, pests and diseases control and post harvesting management.
- To provide the students awareness about the marketing trends of Mushrooms.
- To give the students exposure to the experiences of experts in the field and to functioning mushroom farms.
- To help the students to learn a means of self-employment and income generation

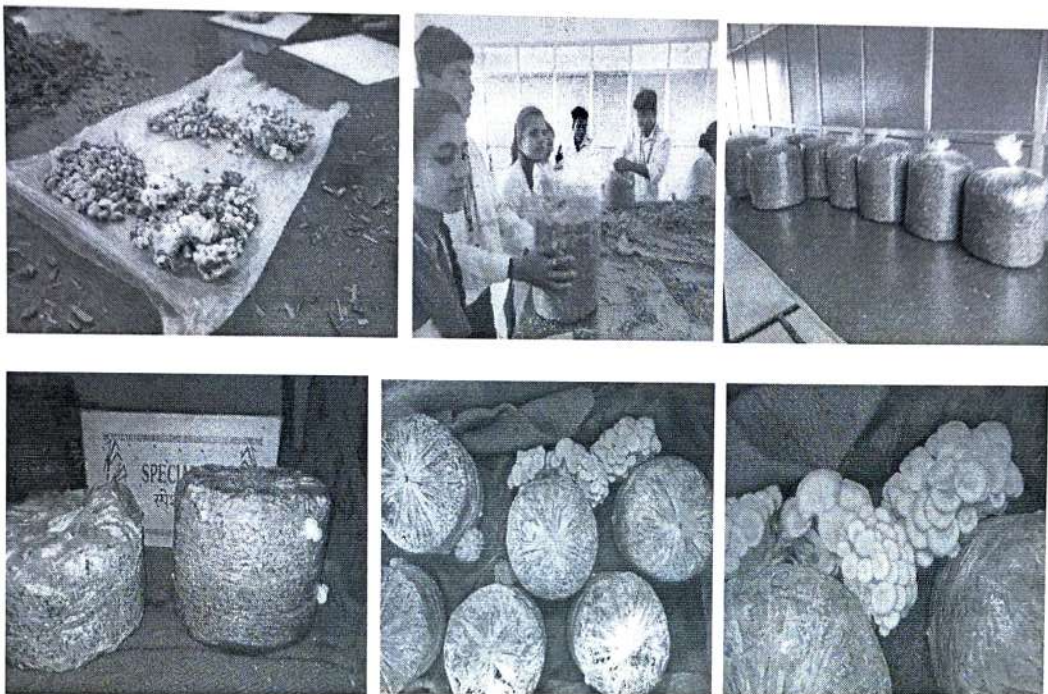

Report:

On 8th and 9th April 2022, the students of Botany, under the supervision of the Faculty of Botany Dept. St. Xavier's College, Mahuadanr, visited Oyster Mushroom Cultivation & Training centre, for a two-day hands-on training programme. It is about 5 km from the college, located at Mahuadanr Block, Latehar district, Jharkhand, India. The students were given detailed input on mushroom cultivation and its nutritional importance in the present scenario. The commercial aspects of mushroom cultivation were also explained. They visited the various plant resources in the campus, which are used in various research related activities. The students were overwhelmed by the knowledge given by a member of this group and by the detailed information provided on mushroom cultivation.

Cultivation of *Oyster* mushroom:

Production of oyster mushroom can be divided into the following stages:

- a. Selection of raw materials for substrate, for mushroom cultivation:** - That may be cellulose waste or straw.
- b. Chopping and wetting of raw materials for substrate:** - This increases the density of the substrate, and moisture by 65-70%.
- c. Preparation of spawn:** - Preparation of substrate for spawns production, Inoculation and incubation of substrate. This involves planting of spawn and colonizing of spawn.
- d. *Oyster* Mushroom fruiting:** - Mushroom fruiting and harvesting takes place.
- e. Packaging, storage and shipment of *Oyster* Mushrooms:** - Refrigerating, special packaging.

Findings & Outcomes:

The Government of Jharkhand has initiated the Tejaswini Project to promote socioeconomic empowerment of teenage girls and young women. This project aims to enhance their skills and help them acquire education, training, employment and enter the experienced workforce in developing sectors of the economy. Under this project, girls and young women are provided with economic, social and political opportunities for their overall enhancement.

Conclusion:

Field trip, visit and exposure allow the students to learn outside of classrooms. They are helped to link the theoretical facts with practical observation and understand their

significance. The students get interested to experience and become more aware of the wide world around them and directly experience various geographical concepts, elements and processes.

St. Xavier's College Mahuadanr conducted Faculty Development programme on the "Revised Assessment and Accreditation Framework of NAAC" on August 4-5, 2023. The resource persons for this program were Dr. Sr. Grace and Mr. Piyush Verma from St. Xavier's College of Management & Technology, Patna. Acknowledging the substantial benefits that accreditation from a recognized body brings to higher education institutions, the program centered around the importance of successfully obtaining accreditation. Dr. Sr. Grace delved into the intricacies of the revised framework established by NAAC, emphasizing its significance for both educational institutions and their students.

A notable emphasis was placed on the Quality Learning and Metrics (QLM) questions, with Mr. Piyush underscoring their critical role. He provided a concise yet thorough explanation of each criterion, offering valuable insights to the attendees. He emphasized on strategic concentration on QLM questions and adherence to proper reporting guidelines aimed to equip institutions with the tools necessary to achieve higher rankings in the NAAC accreditation process.

Sub: Internship of students of Physics Department in your Centre

Dear Sister,

It is to bring to your kind notice that St. Xavier's College Mahuadanr is committed to impart quality education to the most neglected underprivileged students. The college is meant to serve the indigenous people of the remote area of Mahuadanr. The ambition of the college is to inspire students to learn, lead and serve in the constantly diversifying and changing world.

We intend to achieve academic excellence in all our streams. We wish to inculcate moral and humane values in our students so that they may be responsible citizens of our country. In our endeavor to serve the people of the locality, we are very much interested to collaborate with you and participate in your community building activities.

I therefore, implore you to sketch out a programme for exchange of faculties and students to achieve the noble ambition of generating leaders who are compassionate and competent to build up a just society.

Looking forward to your kind response,

Yours faithfully,

The Principal
St. Xavier's College
Mahuadanr

Sub: Internship of students of Physics Department in our Centre

Respected Principal,

It is pleasure for me to accept your request letter Ref: SXCM/MOU/02/2020 for an institutional tie-up between Carmel Hospital, Mahuadanr and St. Xavier's College, Mahuadanr. This is a Social work cum Medical centre committed to the integral well-being of the indigenous people in this Tribal area. We extend our whole hearted service for upbringing of Children, Youth & supporting elderly people. We are confident that our collaboration with your institution will profit both institutions for integral growth of the students. I therefore request your good office to accept this Letter of Agreement for Institutional tie-up. We will look forward to have faculty and student exchange programs, students' exposure programs in the hospital in future.

Yours Truly,

**Administrator
Carmel Hospital
Mahuadanr**

6. **Detail description of the event:**

Abstract: Ultraviolet radiation is ubiquitous. Almost everyone has some exposure to ultraviolet radiation on a daily basis. The contrasting requirements of protection from excessive ultraviolet radiation and receiving sufficient sunlight to promote the production of vitamin D by the skin have meant that those inhabiting low latitudes, with high UVR intensity, have darker skin pigmentation for protection from the deleterious effects of UVR, while those in higher latitudes have developed fair skin to maximize vitamin D production from much lower ambient ultraviolet radiation. Doctor of Carmel hospital Mahaudanr show some image while she was taking and gave so many information about the Ultraviolet radiation.

Introduction and discussion:

Living organism on Earth has evolved over millions of years as the planet and its atmosphere have changed. Selection pressure related to ultraviolet radiation (UVR) have likely been instrumental in the development of different skin pigmentation in humans, as they have migrated from areas of high ambient UVR to areas of lower ambient UVR (1). The contrasting requirements of protection from excessive ultraviolet radiation and receiving sufficient sunlight to promote the production of vitamin D by the skin have meant that those inhabiting low latitudes, with high UVR intensity, have darker skin pigmentation for protection from the deleterious effects of UVR, while those in higher latitudes have developed fair skin to maximize vitamin D production from much lower ambient ultraviolet radiation.

In the last few hundred years however, there has been more rapid human migration out of the areas in which we evolved, to all other part of the world. No longer is our skin pigmentation necessarily suited to the environment in which we live. While dark skinned population at low latitudes have very low level of melanoma and cancers of the skin, migration of these people to areas of high latitude has been increase in the incidence of rickets.

St. Xavier's College, Mahuadanr

Latehar-822119 Jharkhand

Meanwhile, our industrialized society has produced chlorofluorocarbon (CFS) that reacts chemically with the stratospheric ozone that has shielded Earth from most of the harmful wavelength of ultraviolet radiation. The resulting loss of stratospheric ozone has been associated with increasing levels of some types of ultraviolet radiation reaching the Earth's surface. It is difficult to assess changes in UVR due to stratospheric ozone depletion, using ground-based measurement, due to UVR changes associated with fluctuation in cloud cover and increase in lower atmospheric pollution.

Ultraviolet radiation is ubiquitous. Almost everyone has some exposure to ultraviolet radiation on a daily basis. It is an exposure we cannot entirely avoid and, anyway, to strive for zero exposure would create a huge burden of skeletal disease from vitamin D deficiency. However, evaluation of the burden of disease create by excess exposure to UVR is very important since avoidance of excess exposure is a relatively simple public health message.

Instrument are needed that can integrate incident UVR from 200 to 320 nm according to the "effectiveness action spectrum" for skin and eye proposed in order to enforce the proposed standard for occupation exposure do not exist at present.

Accurate and continuous measurement of line UVR reaching the earth from the sun and sky (direct and global) is necessary to

- (a) Establish baseline levels
- (b) Establish the range of natural existing variation
- (c) Monitor persistent changes resulting from various causes

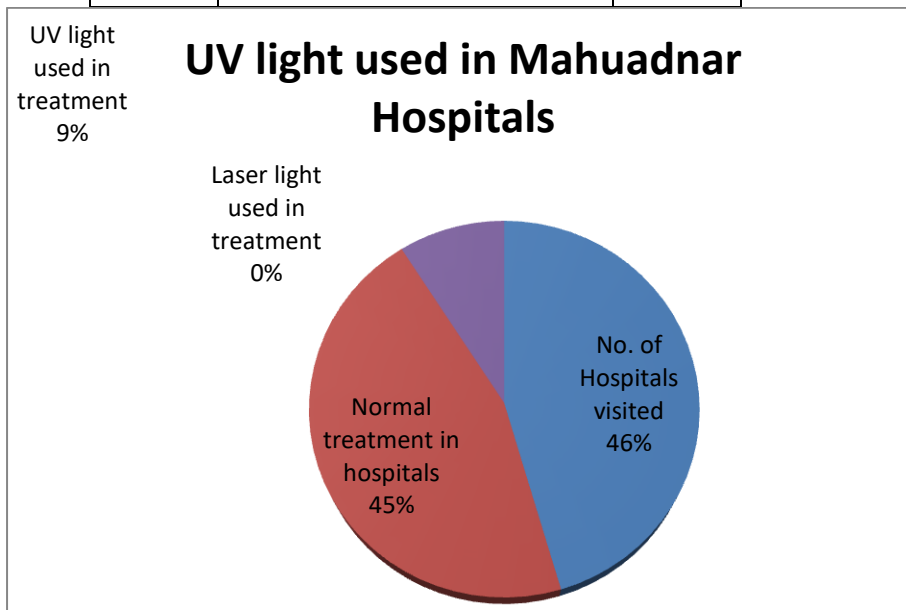

Known UVR-emitting artificial source should be clearly identified by appropriate hazard labels. Where possible, such source should be housed in protective enclosures and equipped with appropriate safety device including those necessary for eye and skin protection.

Physics students of St. Xavier's college Mahuadanr visit the Carmel hospital Mahaudanr to know about the use Ultraviolet radiation in the treatment of kidney stone and other type dieses. Doctor of Carmel hospital Mahaudanr show some image while she was taking and gave so many information about the Ultraviolet radiation.

Data collection during visiting hospital in Mahuadanr town.

1	Population of Mahuadanr	98646
2	No.of Hospitals visited	5
3	Normal treatment in hospitals	5
4	Laser light used in treatment	0
5	UV light used in treatment	1

Pai Chat of the collected data shown above.

St. Xavier's College, Mahuadanr Latehar-822119 Jharkhand

Conclusion:-

Known UVR-emitting artificial source should be clearly identified by appropriate hazard labels. Where possible, such source should be housed in protective enclosures and equipped with appropriate safety device including those necessary for eye and skin protection. Due to these hazards it is very important that all the safety precautions requirements should be available in the hospital where the UV system is used. These safety precautions are: UV instruments should only be used by qualified and experienced technicians, surgeons and physicians. These instruments must be kept away from those who misuse them. These instruments must be occasionally checked, tested and maintained.

1. **Title of the Program :** Blood test Camp
2. **Organizing Department / Cell :** YRC & IQAC
3. **Date/Duration :** 17th May 2019
4. **Place:** Regai Village
5. **Number of Participants :** 40
6. **Detail description of the event:** The IQAC cell of St. Xavier's College, Mahuadanr headed by the Principal of the College Dr. M. K. Jose and in collaboration with Carmel Hospital and the Department of Botany of St. Xavier's College conducted a blood test camp in Regain village of Mahuadanr subdivision on 17th May 2019 as part of the extension activities with the help of IQAC coordinator Sr. Kaslin Juliet and two medical Sisters Vandana and Jelsi. About 150 samples of blood were taken to check their blood group and hemoglobin. The finding of the study was that the hemoglobin level of the people was on the average; the Hp level varies from 7 to 13 which is only average. The villagers cooperated with the program and were happy that number of people came to know about their blood group as well as the hemoglobin level.

1. **Title of the Program :** Exploring the Flora and Medicinal Plant of Botanical garden, Pakripath
2. **Organizing Department / Cell :** Department of Botany
3. **Date/Duration :** February 18 & 19, 2019
4. **Number of Participants :** 11
5. **Objective of the Program:**

The purpose of the field visit was to introduce the students of the Department of Botany, St. Xavier's College, Mahuadanr to the diverse flora and ecological aspects of the region and to explore the knowledge of plants with medicinal properties.

6. **Detail description of the event:**

The field visit was organized as a part of the B.Sc. curriculum, allowing students to experience the practical application of theoretical concepts in botany. The trip commenced on February 18 & 19, 2019 and the students arrived at the Botanical Garden Pakripath. The garden, marked with Latin scientific names for each species, facilitated easy identification and learning. The students observed various plants in their natural habitats, including a cactus garden, gymnosperms, and exotic varieties of bamboos and angiosperms. Soil samples were collected under the supervision of teachers for subsequent analysis in the laboratory. Additionally, plants were collected for herbarium preparation, and local people were consulted to identify medicinal plants and gather information on their traditional uses.

During the visit, the students identified several medicinal plants, including *Amomum aromaticum*, *Azadirachta indica*, *Andrographis paniculata*, *Catharanthus roseus*, *Aloe vera*, and *Phyllanthus amarus*. The garden also featured shrubs such as *Acalypha hispida*, *Nerium oleander*, and various species of *Ixora*. Floral species like *Ixora chinensis*, *Gardenia jasminoides*, *Mussaenda erythrophylla*, *Vinca rosea*, and *Rosa indica* were also observed. The students interacted with the gardeners, who provided insights into plant care and the basic requirements for their growth. The visit enabled the students to learn about different plant types, families, and their varied functions. Many of the plants observed were traditionally used to treat ailments like dysentery, diarrhea, epilepsy, cough, and cold. Some plants, such as *Shorea robusta*, *Tectona*

St. Xavier's College, Mahuadanr Latehar-822119, Jharkhand

grandis, Sapindus mukorossi, Azadirachta indica, Piper longum, Asparagus racemosus, and Amomum aromaticum, have a long history of traditional usage.

7. Outcome of the event:

The field visit to the Botanical Garden Pakripath proved to be an enriching experience for the students of the Department of Botany, St. Xavier's College, Mahuadanr. The first-hand observation of plants and the practical application of theoretical concepts provided a lasting understanding of the subject. The visit successfully fostered scientific aptitude among the students and deepened their knowledge of plant sciences.

Latehar-822119 Latehar

1. **Title of the Program:** Field visit to Handloom centre
2. **Organizing Department / Cell :** History
3. **Date/Duration :** April 3rd, 2023
4. **Number of Participants :** 77

5. **Detail description of the event:** A field trip to the handloom centre located at Mahuadanr, was carried out by the History department on headed by Asst. Prof. Ravi Roshan Minj and Asst. Prof. Sanjay Bara accompanied by students of B.A Semester II. The centre was visited during the afternoon time around 1:00 p.m and it proved to be a great learning experience for the faculty and students and a change from the routine classes. Due to the active participation, interaction and communication with the people at the handloom centre, it was a source of great information and knowledge about the working ,the product and the activities carried out over there. In the following pages we would give light to all the important facts that we came to know **Main highlights of the working process at the handloom centre**

- It takes 14 to 15 days to complete the process making of a piece of cloth.
- They gain only Rs 55 on the manufacture of per cloth.
- It takes an hour to weave a cloth from the thread.
- There are 6 people engaged on the machine where cloth is weaved from the thread.
- There are six machines and six workers to work on them.
- They provide quality clothes at lower rates.
- The workers earn 10000 to 12000 Rs per month.
- The material for manufacture of cloth is transported here from Kolkata via Ranchi .
- They sell these clothes locally and also transport it to Ranchi and other nearby towns.
- The main attractions manufactured here are sarees, shawls, bandis, towels, kurtis, etc which are available at much lower rates than available in the markets.
- They initially started off as a training centre five to six years back, but with time it has emerged as an independent trading unit .
- Their area of operation extends to five dismils i.e 2178 sq. feet.

The main process of cloth making

This is a small scale handloom centre manufacturing khadi clothes from threads . It involves many procedures before the final cloth is ready to be sent to market or put to sale .

St. Xavier's College, Mahuadanr

Latehar-822119 Latehar

Firstly, the threads in the form of big bundles are converted into fine threads by using spinning wheel –charkha, which is then stored in the form of small bundles of fine threads.

Secondly, these threads are put into a wooden frame from where it is put into the cylindrical wood log of the main machine.

Thirdly, when the threads are systematically put in the main machine, the workers weave clothes from these threads. They introduce different patterns and dyes to make the clothes decorative and attractive.

Finally, they display these clothes and send them to different markets for sale purpose and earn nominal profits over it.

Conclusion and inferences

It is a fast growing entrepreneurship business started almost five years ago. The owners Mr. Merajul Ansari and Mrs Safeela Ansari first started it as a training ground but have expanded their business over the years creating employment for 11-12 people over here and others involved in transportation, trading and sale of the product , locally and also in other towns and cities. Their shawls and bandis have a wide market and they receive orders from other states even. They have been continuously working on its expansion and diversification .

The students response ,interaction and participation also made it an effective field trip . The people at the handloom centre welcomed the professors by making them wear the *bandis and shawls* as a mark of their visit to the handloom centre . It was an overall productive trip to be remembered and learned from . The efforts of the people working at the centre was worth appreciation .

AWARENESS PROGRAM ON ECOLOGY & GREEN AUDIT BY TARUMITRA, PATNA

- On 26th July, 2018, a short seminar entitled “sustainable use of natural resources” was conducted in the college by Fr. Dr. Robert Athikel, the Director of Tarumitra, Miss Devapriya and team. It was based on the inexhaustible natural resources available within the campus. Making use of the PowerPoint presentation, they highlighted the benefits and exhibited the value of the green resources in possession of the college. They also brought out awareness among the students with the statement “*Nature is the best Teacher for every individual*” as well as encouraged students to preserve nature and join as the member of Tarumitra. As a hallmark of the program, two of our students Anjana Sonam, Dept. of Hindi, Hemant Minj, Dept. of English and Asst. Prof. Rashmi Kandulna were presented saplings to plant in our campus. It was indeed a marvelous day for the college and students.

ENVIRONMENT AWARENESS PROGRAM

On February 1, 2019, the esteemed eco-care center, Tarumitra, organized an Environment Awareness Program. This initiative, led by the Patna-based NGO, engaged participants in a comprehensive examination of environmental issues within and around the college. The Tarumitra team presented solutions and practical recommendations aimed at fostering an eco-friendly transformation of the college campus.

VISIT TO TARUMITRA

The visit of St. Xavier's College to environmentally friendly institutions, such as Tarumitra, served as a means to heighten awareness regarding the significance of sustainable living. This experience equipped individuals with greater knowledge of environmental issues, empowering them to become advocates for positive change within their respective spheres of influence. Additionally, the valuable opportunities for networking and collaboration were enriched. On 20th June 2023 Asst. Prof. Ajay Sao visited the Tarumitra institution to gather information on different environmental practices and methods of preserving endangered species.
